## **DETAILED ACTION**

### ***Response to Arguments***

1. The amendment filed February 21, 2003 in paper no. 10 has been considered.
2. Applicants contend the rejection of claim 6 is traversed because Applicants alleges that the reference fails to teach each and every limitation of the claim, namely "providing flux onto flip-chip bumps".

In response to Applicants contention that Eldridge, U.S. Patent 6,435,396 B1 (herein known as Eldridge) fails to teach providing of flux onto flip-chip bumps, Applicants are again directed to column 1, lines 1-68. The reference as a whole teaches the limitation of providing flux and also discloses flip-chips. The subject matter as a whole provides an apparatus that can apply materials to integrated circuits (which includes flip-chips as described in column 1, lines 23-24) as well as solder bumps and fluxes. Therefore Applicants arguments are moot and the rejection is maintained.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

4. The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C.

Art Unit: 2823

122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Eldridge, U.S. Patent 6,435,396 B1.

6. Eldridge discloses an apparatus as claimed. See **FIGS. 1-3** where Eldridge teaches an apparatus for depositing flux on a semiconductor chip, the apparatus comprising:

a support (not shown) for positioning the semiconductor chip at a predetermined location for depositing flux, the semiconductor chip having a plurality of flip-chip bumps (column 1, lines 23-24) arranged on its surface; and

a jet printing head **10** for printing a flux pattern (column 8, lines 28-33, please note that flux is used in soldering for removing oxide from the work piece), on the flip-chip bumps (not shown), the flux pattern substantially identical to an arrangement pattern of the plurality of flip-chip bumps on the semiconductor chip, such that the flux is deposited substantially only on the flip-chip bumps.

***Claim Rejections - 35 USC § 103***

7. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Allowable Subject Matter***

8. Claims 7, 8, 9, 10, 13 and 14 allowed.

9. The following is an examiner's statement of reasons for allowance: the prior art rejection fails to teach a data storage storing an arrangement of the flip-chip bumps on the semiconductor chip.

Art Unit: 2823

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
